Deadline Extension Notice For CCIC 2021

Upon requests from potential participants and in order to provide sufficient time for preliminary submissions in CCIC 2021, the organising committee has decided to extend the deadline of the preliminary round to **15th October 2021** for **generators** and **22nd October 2021** for **judges**.

In addition, please notice that the submission requirements for **judges** have changed after the discussion and consideration of the CCIC Organising Committee:

1. For **judges**, preliminary submission is <u>voluntary</u>. Participants can still participate in the final round without any preliminary submission. Any valid submission record before the <u>final</u> submission deadline (6th Nov 2021) will be considered as completing the registration for this challenge. It is strongly recommended that **judges** participate in the preliminary submission, which will be a warm up and a preparation for the final submission.
2. For **generators**, **<u>participants are still required to complete both the preliminary submission and final submission.</u>**

For detailed information about CCIC 2021, please refer to https://csmt-ccic-2021.github.io/CCIC/index.html. In case of special circumstances in the challenge, please write to csmt.ccic.2021@gmail.com for any enquires.

Schedule

Time	Event	Description
End of August 2021	Beginning of challenge	A list of violin composers will be released, where each violin composer has a specific music style.
15th Oct	Preliminary submission deadline for **generators**	Participants who have chosen to build a **generator** should submit their output. Valid submission indicates registration to the challenge.
22nd Oct	Preliminary submission deadline for **judges** (Voluntary)	Participants who have chosen the **judge** role should submit their output. Valid submission indicates registration to the challenge. Notice that this submission is optional/voluntary and therefore not a prerequisite for the final submission.
1st Nov	Release of the beginnings and endings	Beginnings and endings are released in pairs as a part of requirements of final submission.
3rd Nov	Final submission deadline for **generators**	**Generator** systems should complete these phrases in 48 hours and make the final submission.

Time	Event	Description
4th Nov	Release of the generated phrases	Generated phrases will be compiled, shuffled and made available to **judge** systems.
6th Nov	Final submission deadline for **judges**	**Judges** systems should calculate the HCSs in 48 hours and make the final submission.
Mid-Nov	Result announcement	Results and prizes will be announced during the conference
